

CHANDAN D C

Software Engineer | Java Full Stack | SQL | JavaScript | OOP
Bangalore, Karnataka • +91-7349477505 • chandan20041220@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Software Engineer with a solid foundation in Java, SQL, and JavaScript, and working knowledge of Python and C. Skilled at building efficient, scalable applications and translating problem statements into clean, maintainable code. Demonstrated ability to design and deploy end-to-end software solutions spanning web applications, image processing, and data-driven platforms. A fast learner who thrives in collaborative, fast-paced environments and is committed to staying current with modern development practices and tools.

TECHNICAL SKILLS

Core Languages: Java, JavaScript, SQL, HTML, CSS, C

Java Full Stack: Spring Boot, Spring Framework, Hibernate, JPA, REST APIs, React.js, Docker (basic)

Web & Tools: Git, GitHub, MySQL, SQLite, OOP & Object-Oriented Design, Agile (Scrum)

Python (Basic): Data scripting, ML pipelines, Flask web apps, Pandas, NumPy, Scikit-Learn, OpenCV

Data & AI (Supporting): Machine Learning (basic), Deep Learning (basic), TensorFlow, Power BI, Tableau

Dev Tools: GitHub Actions, CI/CD (basic), Docker (basic), Jupyter Notebook, Linux (basic)

TRAINING

- Java Full Stack Development – Dhee Coding Lab, Bangalore (Currently Pursuing)

EXPERIENCE

Data Science Intern – Electric Vehicles | [Vision Astraa EV Academy](#) | Bangalore, Karnataka | May 2026

- Designed and developed GridSense — a full-stack web platform using Flask and JavaScript for EV charging station load forecasting; built data pipelines integrating multiple data sources and delivered an interactive Chart.js dashboard for stakeholder reporting.
- Diagnosed and resolved data pipeline issues through systematic debugging and root cause analysis; documented system architecture and workflows for cross-functional team handoffs.
- Built and evaluated predictive ML models reducing prediction error by 15%; translated software outputs into Power BI dashboards for operational decision-making.

PROJECTS

Image Steganography – LSB Algorithm in C | C | JavaScript | HTML | CSS | 2024

- Designed and implemented a Least Significant Bit (LSB) steganography algorithm in C for secure message embedding and extraction across 3+ image formats (PNG, BMP, JPEG) with minimal image distortion and reliable message recovery.
- Built a web-based front-end interface using HTML, CSS, and JavaScript; documented algorithm design, flowcharts, and encoding logic following clean code and software handoff best practices.

Deep Sea Vision – Computer Vision Web Application | Python | YOLOv8 | OpenCV | Flask | OOP | Sep 2025

- Developed an OOP-based Python application for underwater trash detection; implemented YOLOv8 pipeline with modular class-based architecture tested across 1,000+ images achieving 91% mAP, 89% Precision & 87% Recall.
- Debugged and troubleshooted model inference issues; deployed a scalable Flask web application with REST API endpoints and structured technical documentation.

Stock Market Forecasting – Algorithm Design & Deployment | Python | ARIMA | LSTM | TensorFlow | Streamlit | Dec 2025

- Implemented a multi-algorithm forecasting system across ARIMA, SARIMA, Prophet, and LSTM models with systematic debugging and hyperparameter tuning achieving 18% MAPE reduction over baseline.
- Deployed an interactive Streamlit dashboard for real-time forecast visualisation; maintained clean, well-documented and maintainable codebase following software engineering best practices.

EDUCATION

B.E. – Computer Science Engineering & Data Science | MVJ College of Engineering, Bangalore | 2022 – 2026 | CGPA: 8.8 / 10

CERTIFICATIONS

- NPTEL Elite – Exploratory Data Analysis for Data Science with R, IIT Kanpur – 81% (ID: NPTEL26CS07S1450203525)
- Data Analytics Job Simulation – Deloitte (Forage)
- Python Programming for Beginners – Udemy (ID: UC-cd6cc41a-0451-4f5f-960d-d4be27a216f5)

EXTRACURRICULAR

- NCC Cadet ('B' & 'C' Certificates) | VTU State-Level Hockey Tournament representative (3x) – MVJ College of Engineering
